Each of our Apps is comprised of 2 Apps or separate parts or components.

- ❖ The USER App is installed on the Child/USERS phone.
- ❖ The CONTACT App is installed on the Parent or Guardians phone.
- ❖ The 2 Apps are connected and registered uniquely.
- ❖ No one else has access to the DATA!

USER App (component) (1)

SAFECHILD APP
Keep them SAFE!

The USER App:

- ❖ Has 5 Modes, 3 of which are OPERATIONAL Modes.
 - BULLY Mode: records video & audio when the USER needs it and automatically transmits it to the CONTACT. Great for proof.
 - TRAVEL Mode: is used when the Child travels and is potentially at risk, just set and travel. This will turn to the HELP mode if it is not responded to.
 - HELP Mode: is activated whenever the Child needs HELP and data is collected and sent to the CONTACTS.

USER App PRO version (1)

The USER App for Safe Child Pro has 3 additional feature:

- CHILD DOWN Mode, this will sense if the Child is hit.
- TRACKER Mode, use the this to listen in and see where the child is.

CONTACT App component (1)

SAFECHILD APP
Keep them SAFE!

The CONTACT App sits on the Parents/Guardian Smartphone/PC. It receives data and notifications from the USER/Child.

- ❖ It's a map & sees the Child/USER & location logs (where the USER was).
- ❖ Phone Logs, Pictures, Audio & Video are transmitted to the CONTACT App when HELP is needed allowing the CONTACT to HELP the Child.
- ❖ This is invaluable DATA/EVIDENCE.

CONTACT App component (2)
